

Marine Batteries & Battery Charger

MARINE LEAD ACID BATTERY

- Standard & Maintenance Free
- 4V , 200AH
- 2V, 300AH
- 2V, 200AH

LEAD ACID BATTERY ,

- 6 Volts & 12 Volts
- 35 AH to 240 AH
- SEALED , MAINTENANCE FREE

Battery Charger- Automatic - 3 Stage

- Wide model range covers battery system ratings from 14-950 amp-hours
- Gel-Cell/Flooded Lead-acid/AGM battery type switch selects optimum charge/float voltages.
- Multiple isolated output banks; ammeter indicates total output current
- Optional sensor adjusts output voltage based on battery temperature
- Current limiting-prevents damage from overloading.
- Charger status clearly displayed with L.E.D. and/or audible indicators or optional remote panel.
- Use as a power supply; can power loads without a battery in line.
- Built to last—rugged stainless steel case with a durable white powder coat finish with an optional drip shield and marinated internal circuitry.
- Numerous Safety and EMC Compliances
